The Triengial Examination of Military aspirants for the Chinese service, to the numbe of over four thousand, is now going on under the presidency of H. E. the Viceroy. The examination commenced on the 4th day of the Chincee moon and will conclude, so far as the South Camp is concerned, on Saturday next, in another place set apart for the purpose. If

possible, we shall give a notice of the review. On the morning of the 4th inst. a fire brok out at cracker manufacturer's shop in the district of Ponesang, on the road to the Settle ment, and raged flercely for some time. Several other houses, and, we regret to hear, the American Mission School, were burnt, His Excellency the Vicercy was the first to notice Camp. His Excellency immediately sent the 2nd Company of Foreign drilled troops to the

scene of the accident, and by their endeavours the fire was promptly got under. A pleasant sight is to be presently offered t the public, viz: the execution of a young and affectionate Chinese gentleman, who after beating his mother to death in a friendly dispute, took ber body up to one of the Hills near Pagoda Anchorage, (in the vicinity of the same village from which the lute attack on the Onstom House was made) and there baried it. The remains have not been identified, so as yet there is no clue to the murderers. NAGASAKI. 25th October. Since the Formosa campaign there has not been so much commotion in this ordinarily quiet little spot as has been onused by the news of the transfer of the Pacific mail steamers to the rival Company. The usual letharay of our daily routine received a while some atim ment in the appearance of an Express, notifying a audden and unexpected rise in rates generally. Shippers began to grumble that no notice had been given them, and complained that the increase had not only been too hasty but too high a jump, all at once. Chinese shippers do not seem to view the change of affairs very calculy. No doubt many of them have been calculating on the low-rate tariff lasting some time longer, and this ornel demolition of their little game has been the cause of much wailing. However, they cannot complain. IMPERIAL QUARTO. ENGLISH AND CHINESE DICTIONARY

WITH THE PUNTI AND MANDARIN PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

MOR comprehensiveness and practical service I this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given, the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications.
